

Great Clouds of Blessings

OM AH HUNG HRIH.

Within the palace of blazing great bliss is the wisdom body that realizes bliss and emptiness.

Like a lotus, it is blissful yet free from attachment. From it arises the vajra sun, the splendour of great appearance and manifests as Amitabha Vajradhara, Avalokiteshvara, the lord of kindness that take form through compassion, and Padma Gyalpo, who completely subdues samsara and nirvana, the great powerful Heruka, subjugator of the animate and the inanimate world, the secret wisdom, Vajravarahi of supreme bliss, the treasury of great bliss, the goddess Kurukulla, who captivates the minds of all beings without exception, the Lord of supreme and mundane mudras who dances in bliss and emptiness, and the powerful vajra dakas and dakinis.

Within the great sphere in which appearance and emptiness are equal, the dances of Vajrakaya causes the worlds to tremble. The joyous laughter of unobstructed speech captivates the three realms, and red light rays completely permeate samsara and nirvana. Moving and gathering the refined essence of existence and practice. With a mind of great vajra passion, you bestow the two siddhis.

Supreme among all that we desire. With great vajra iron hooks and lassoes you bind the phenomenal world in great bliss in a playful dance of a miraculous display. Hosts of powerful yidams and a vast number of the three roots, seated as piles of sesame seeds opening, we supplicate you with devotion, grant your blessings. Bestow the siddhi that unobstructedly magnetizes, the glory of the supreme and ordinary siddhis and all that we desire.
